3. SUMMARY OF KEY ISSUES

The NHS Scotland Corporate Governance Blueprint defines governance as the system by which organisations are directed and controlled and describes a three-tiered model that explains the functions of a governance system, the enablers and the support required to effectively deliver those functions.

The Improvement Plan is updated for noting at each Board meeting, and is closely aligned with relevant actions within the Sturrock Report.

As reported in October 2019 Scottish Government sought a 6 month progress update from NHS Boards, in November 2019, and that was submitted. We have received no feedback as yet.
