The purpose of this paper is to provide Board Members with

2. ROUTE TO THE BOARD

This paper has been prepared by Kay Sandilands, Director of Human Resources and has been presented to NHS Lanarkshire's Staff Governance Committee.

3. SUMMARY OF KEY ISSUES

The National Whistleblowing Standards and Once for Scotland whistleblowing policy (the Standards) were introduced on 1 April 2021. It is a requirement of the Standards to report whistleblowing performance to the NHS Board on a quarterly and an annual basis.

There was one whistleblowing concerns raised during Quarter 3 between 1st October and 31st December 2022. This concern was raised directly with the INWO from a former employee of an independent primary care contractor. The concerns are still being investigated and further details will be provided in the Q4 report.

The attached report provides details of whistleblowing concerns raised across the organisation by staff and those who provide services on behalf of NHS Lanarkshire. This demonstrates our performance in key areas of whistleblowing handling, as well as highlighting outcomes and providing more detail on Whistleblowing themes.

6. MEASURES FOR IMPROVEMENT

These are set out in the Appendix.

7. FINANCIAL IMPLICATIONS

None.

8. RISK ASSESSMENT/MANAGEMENT IMPLICATIONS

If staff do not have confidence in the fairness of the procedures through which their concerns are raised, or do not feel assured that concerns raised will be acted upon, there is a risk that they will not raise valid concerns about quality, safety or malpractice. The opportunity to investigate and address these concerns will have been lost, with potentially adverse impact on quality, safety and effectiveness of services. There is also a wider risk to organisational integrity and reputation, if staff do not believe they will be listened to and do not feel senior leaders in NHS Lanarkshire are fulfilling the organisation's values and promoting a culture of psychological safety.
