FINANCIAL REPORT AT 30 JUNE 2024 (MONTH 3)

SECTION 1: NHS LANARKSHIRE (OVERALL POSITION INCLUDING IJBs)

• INTRODUCTION

This Financial Report provides a review of the Revenue and Capital position for Month 3 (M3) of 2024-25 including an estimate of the 2024-25 forecast position at March 2025. In M2 it was noted that there was a high level of uncertainty in the financial position due to awaiting allocations from Scottish Government (SG), having enough data to analyse expenditure trends as well as the risk around the realisation of the 2024-25 Sustainability and Value programme.

In M3 NHS Lanarkshire received additional allocations totalling £225,000,626. The allocations received to date are timelier than in previous years which reduces the level of uncertainty. Furthermore, an additional NRAC share of £50m national funding for new medicines is due to be received which was not originally anticipated in our 2024-25 financial plan has been notified.

• 2024-25 FINANCIAL PLAN

NHS Lanarkshire Board (excluding IJBs) opening Financial Plan projected a **-£83,565,475** gap between its recurring budget and ongoing expenditure, offset by a net £28,976,000 of non-recurring SG funding leaving a **-£54,589,475** in year gap to be resolved by efficiencies or other means. NHS Lanarkshire Board (at that point) assessed £48,341,794 of in year savings leaving an opening projected gap of **-£6,247,681**.

SG approved the Financial Plan in April 2024 and subsequently agreed to provide financial coverage up to **-£6,247,681** to support the Transformation and Reform investment plans. Despite this level of financial coverage NHS Lanarkshire Board is pursuing a break-even position for 2024-25.

The narrative and figures described above only apply to the budgets directly managed by the NHS Lanarkshire Board with other health budgets delegated to the North and South IJBs.

The IJBs have a different cost and income profile including the absence of a carried forward recurring gap. IJBs also have an ability to build up reserves and have a degree of insulation from some of the higher cost items such as energy.

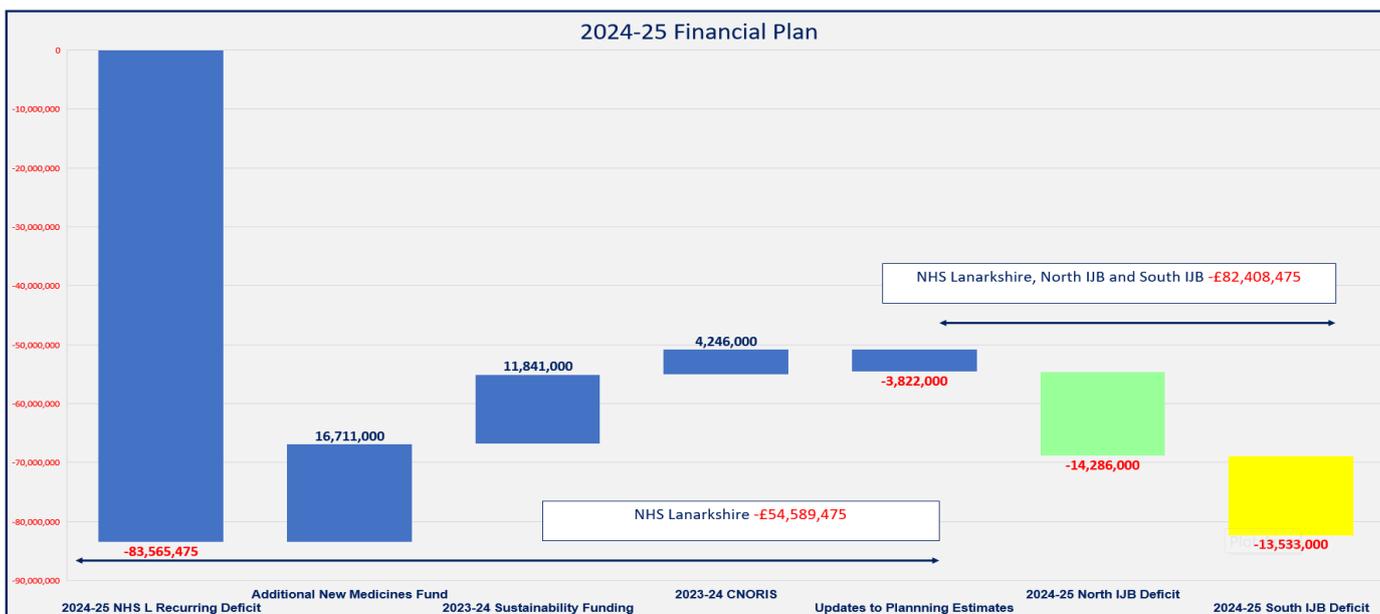

The Financial Plan included a combined forecast deficit for the IJBs of **-£27,819,000** (North - **£14,286,000** and South **-£13,533,000**). Both IJBs have Sustainability and Value programmes identified to bridge their gaps and therefore are targeting a bottom line break-even position for the delegated health budgets.

Prior to savings being delivered the starting position for the whole of NHS Lanarkshire is an overall deficit of **-£82,408,475** being:

- NHS Lanarkshire Board -£54,589,475
- North IJB -£14,286,000
- South IJB -£13,533,000

Chart 1 below provides for the NHS Lanarkshire Board budgets an analysis of the movements from the opening recurring deficit of -£83,565,475 to -£54,589,475 before the recognition of the deficits for both IJB taking the final position to -£82,408,475 for the 2024-25 financial year.

Chart 1-2024-25 Financial Plan Movements

In relation to savings, the target issued by SG to all NHS Scotland Boards is to deliver 3% recurring savings. This which would equate to £44,668,980 (based on 2024-25 Recurring RRL) for NHS Lanarkshire across all budgets including those delegated to the two IJBs.

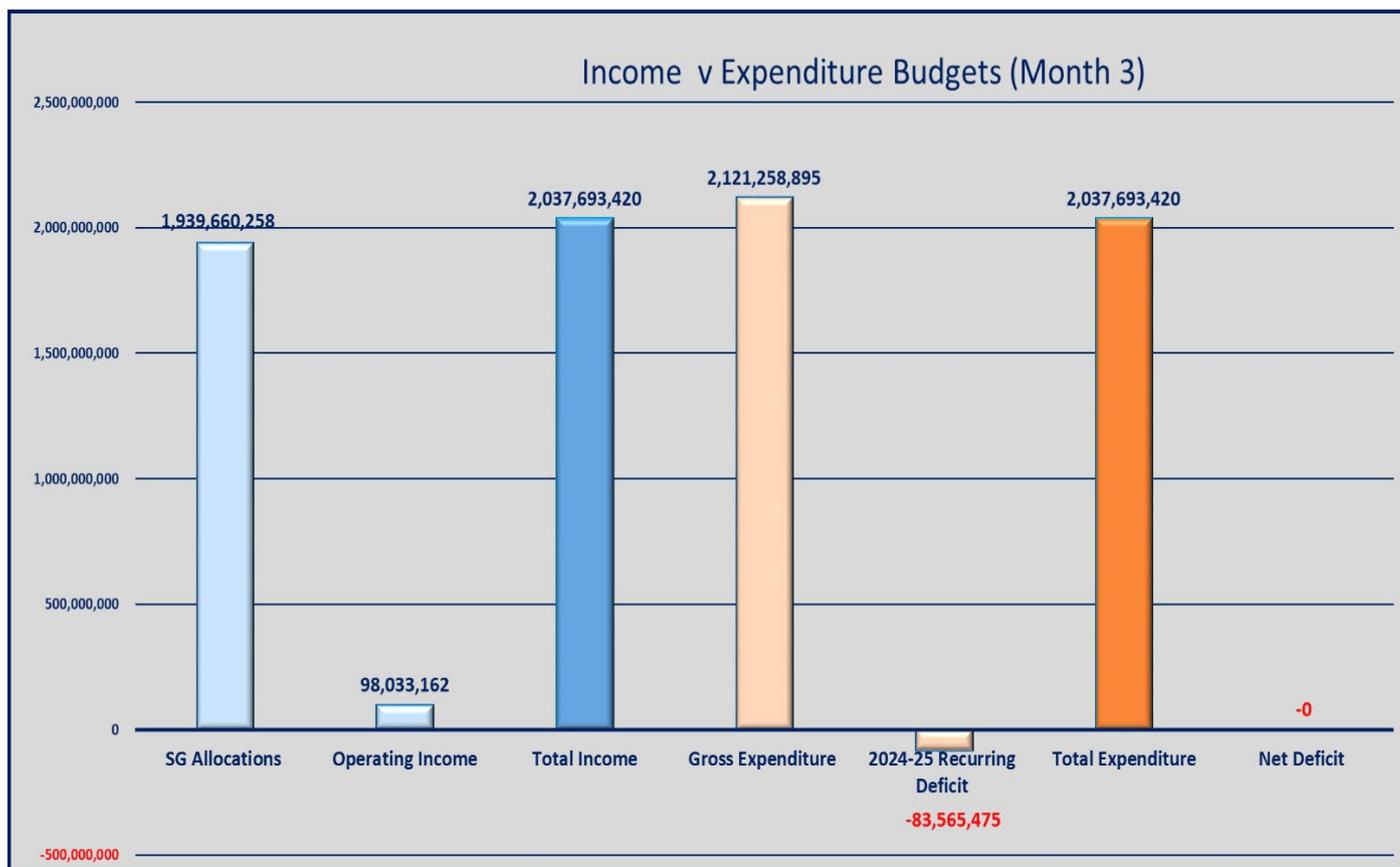

SECTION 2: SUMMARY OF FINANCIAL POSITION AT 30 JUNE 2024 (MONTH 3)

INCOME V EXPENDITURE BUDGETS

At Month 3 the expected total Income for the year is £2,037,693,420 with corresponding net expenditure budgets of £2,037,693,420. This is an increase of £62,077,658 from M2 due to additional allocations being confirmed.

Chart 2 below details the expected levels of SG allocations and operating income as well as the gross expenditure budgets and recurring deficit target required to break even. Appendix 1 provides further detail on the components of the net expenditure budget.

SECTION 3: 2024-25 INCOME POSITION

- **CORE REVENUE RESOURCE LIMITS (RRL)**

Key Points at Month 3

At the end of June 2024, the Core Revenue Resource Limit (RRL) for NHS Lanarkshire is £1,806,070,050 (Appendix 2 provides further details).

The June 2024 allocation letter provided confirmation on a number of the expected allocations, which are timelier than previous years.

There was an additional £62,077,658 in expected allocations received in M3. The largest elements were split between non-core RRL relating to depreciation (£32,073,232) and core RRL for Pension uplift (£16,717,319) and Flu vaccination and Covid-19 vaccinations (FVCoV) delivery allocation (£9,358,327).

Anticipated Allocations - Core

Looking forward NHS Lanarkshire are anticipating at least a net £8,362,000 of specific Scottish Government funding allocations being transferred from our core revenue resource limit to non-core revenue resource limit with the largest component being depreciation £16,529,000 offset against £8,167,000 of further allocations to come.

Anticipated Allocations – Other

NHS Lanarkshire is also anticipating £109,879,000 to match Family Health Services (FHS) non-discretionary expenditure.

- **OPERATING INCOME**

NHS Lanarkshire

NHS Lanarkshire estimates receipt of £98,033,162 of operating income during 2024-25. At M3 the expected budget is £36,522,823 with actuals of £36,545,894 resulting in a favourable income variance of £23,071.

North IJB and South IJB

No operating income has been budgeted or received.

SECTION 4: 2024-25 EXPENDITURE POSITION

This section provides details on the gross expenditure position for NHS Lanarkshire at Month 3.

SECTION 5: NHS LANARKSHIRE DIVISIONAL PERFORMANCE (EXPENDITURE)

The following section of the report details expenditure at M3 across each of the reporting Divisions.

• ACUTE DIVISION

The Acute Division is reporting an overspend of **-£4,313,206** or **-3.0%** for M3 as detailed in **Table 4** below. The overspend position as of M2 was **-£2,977,103** or **-3.11%**. Whilst this represents an in-month overspend of **-£1,336,000**, the rate of overspend has reduced having a positive impact on the full year forecast.

Total Gross Expenditure	574,909,046	142,826,311	147,139,517	-4,313,206

Pay Costs

The overall pay overspend is **-£1,879,487** or **-1.7%** of budget to date, (M2 **-£1,163,786** or **-1.61%**)

The overspend is driven by pay costs in excess of budget

- Medical and Dental **-£3,028,436**
- Nursing and Midwifery **-£1,609,802**
- Healthcare Scientists **- £380,327**

The total Medical and Dental spend in excess of budget for the 3 months to June 2024 is **-£3,028,436** and is linked to locum costs as a result of sickness, rota compliance and difficulties in filling substantive posts. The medical agency costs at £1,996,636 is slightly lower than the comparable period last year of £2,073,715.

The total Nursing and Midwifery spend in excess of budget for the 3 months to June 2024 is **-£1,609,802**. The factors driving this overspend is cover for sickness absence levels and the continued use of agency workers to complement other supplementary staffing solutions. Nurse agency spend totals £3,163,198 for the first 3 months of the year which is a notable improvement against a much higher Agency spend for the comparable period last year (£6,956,226).

These are offset by the Planned Care saving, which accounts for a total of £3,187,575 for the year to date. The continued overspend in Healthcare Scientists budgets forms much of the balance of the year to date overspend.

Non Pay Costs

Non Pay costs are reported as being overspent by **-£2,433,719** for the year to date and whilst Medicines costs remain consistent, volatility in Laboratories and Theatre costs have driven up the Non Pay overspend.

At £19,260,891 NHS Lanarkshire's hospitals drug expenditure is 1.4% more than at the same point last year. Additional drugs budgets have been released from financial planning reserves to match the expenditure profile. At this stage, in the financial year NHS Lanarkshire are awaiting information about the out of area high cost drugs which now make up approximately one third of our hospital drug spend.

With the exception of Planned Care savings, Acute savings plans have not been reflected in the position to date, as the majority are scheduled to impact on the position from Quarter 2 onwards. This will further improve the overall Divisional position.

- **ESTATES, DIGITAL AND OTHER CORPORATE FUNCTIONS**

Estates, Digital and Other Corporate functions are reporting an underspend of £158,308 or 0.3%, (Month 2 £171,296 or 0.49%) for the period to the end of June 2024 as detailed in **Table 5** below.

The overall underspend is spread across the Division.

- Corporate Departments are underspent by c.£68,362
- Property and Support Services are overspent by c.-£153,084
- Occupational Health (SALUS) are underspent by c.£243,030

Total Gross Expenditure	217,549,930	53,844,250	53,685,942	158,308

Pay Costs

In overall terms, pay costs across all reporting areas are underspent by £328,046 or 1.2%, (M2 -£8,840 or -0.05%).

Non Pay Costs

Total non-pay costs are overspent at M3 by -£169,737 or -0.6%, (Month 2 £180,136 or 1.02%). A number of financial challenges are evident within the non-pay budgets with the underspend on the Other Admin Supplies line of £425,621 mitigating these individual pressures.

- **SERVICE LEVEL AGREEMENTS (SLAs)/ OTHER HEALTHCARE PROVIDERS**

Service Level Agreements and Other Healthcare Providers are reporting an underspend of £535,532 at M3 (M2 £370,756 underspend) as detailed in **Table 6**.

Table 6-Expenditure Cost Category Month 3 (SLA / Other Healthcare Providers)

CATEGORY	ANNUAL BUDGET	BUDGET TO DATE	ACTUAL TO DATE	VARIANCE
Service Level Agreements	217,538,744	53,261,256	53,053,762	207,494

Total Gross Expenditure	256,362,604	62,918,222	62,382,690	535,532

The underspend of £207,494 being reported against Service Level Agreements is based on the continuation of the 2023-24 position.

National discussions on how inter Board SLAs should be calculated have yet to take place. Most Boards would have been expected to revise their charges based on a three year rolling average of activity to 2023-24. There is widespread agreement that the previous three years' activity was so atypical due to Covid-19 that it should not be used. Therefore, it is likely that payments based on previous levels will be maintained but is becoming of increasing

importance that a new basis for quantifying cross boundary flow is agreed. It is expected, any specific uplift provided for the pay deal beyond will be factored into the SLAs. If SLAs are uplifted for other pressures this will become a cost pressure for NHS Scotland Boards.

- **NORTH LANARKSHIRE IJB AND SOUTH LANARKSHIRE IJB**

Across the health budgets delegated to both North IJB and South IJBs there is combined underspend of £690,539 for the period to the end of June 2024 (North IJB £342,461 and South IJB £348,078).

There has been a **-£277,272** adverse movement in the combined IJB position, this relates primarily to North IJB with the prescribing overspend more than doubling from £587,000 to £1,277,000. This is being offset in part by further underspends in pay costs with vacancies continuing and supplementary staffing costs reducing.

Pay Costs

Both IJBs continue to have significant levels of savings within their pay cost categories at a combined £4,291,755 (North IJB £2,052,158 and South IJB £2,239,597).

Non Pay Costs

There are a number of pressures reported within the IJB non pay budgets. The main areas are Continence Products, Prison Drugs, Sexual Health Service, Diabetic Equipment and Hospice Service for the North. Each of these areas are historical pressures which have been increasing year on year. For South IJB, Diabetic Equipment, Out of Area Services, which again are historical pressures and are activity driven.

In 2023-24 both IJBs ended the year with a prescribing overspend (North c.£1,781,000 and South c.£6,701,000).

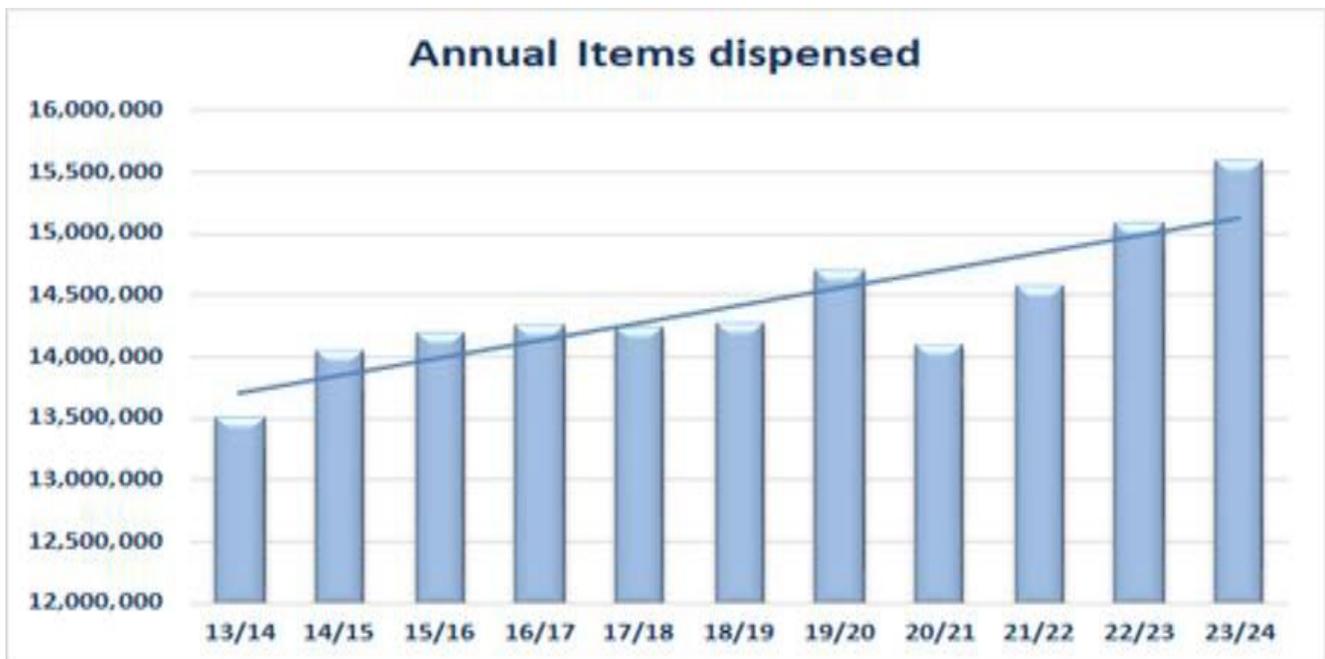

The June 2024 prescribing overspend position of **-£3,196,000** (North **-£1,277,000** and South **-£1,919,000**) has been calculated based on a combination of actual data received for April 2024 and estimated data for May and June 2024. In 2023-24 both IJBs ended the year with a combined overspend of **-£8,482,000** (North **-£1,781,000** and South **-£6,701,000**). The budget received an allocation uplift of 2%, however, the number of items being dispensed increased by 3% and the cost per item increased from an average of £9.93 at March 23 to £10.17 at March 2024.

Based on the data received to date the cost per item has reduced to £10.04 (**Chart 9**), however, the number of items being dispensed has increased by 4.82% based on the same period in 2023-24 (**Chart 10**).

Scottish Government IJB Allocations

Both IJBs receive a relatively high proportion of funding through specific allocations ring-fenced for a set purpose. Any funding unspent at the year-end arithmetically improves the bottom line but given the restrictions on its use, it is protected in reserves for use the following year. For these programmes, money will be released throughout the year to match expenditure to avoid any distortion to the general position. Any unspent elements will be phased in from January 2025, potentially resulting in a surplus that will ultimately be reserved for use next year.

Tables 7 and 8 show the position for North IJB and South IJB respectively.

SECTION 6: 2024-25 SUSTAINABILITY AND VALUE PROGRAMME REQUIREMENT

- SUSTAINABILITY AND VALUE PROGRAMME

OVERVIEW

NHS Lanarkshire Board

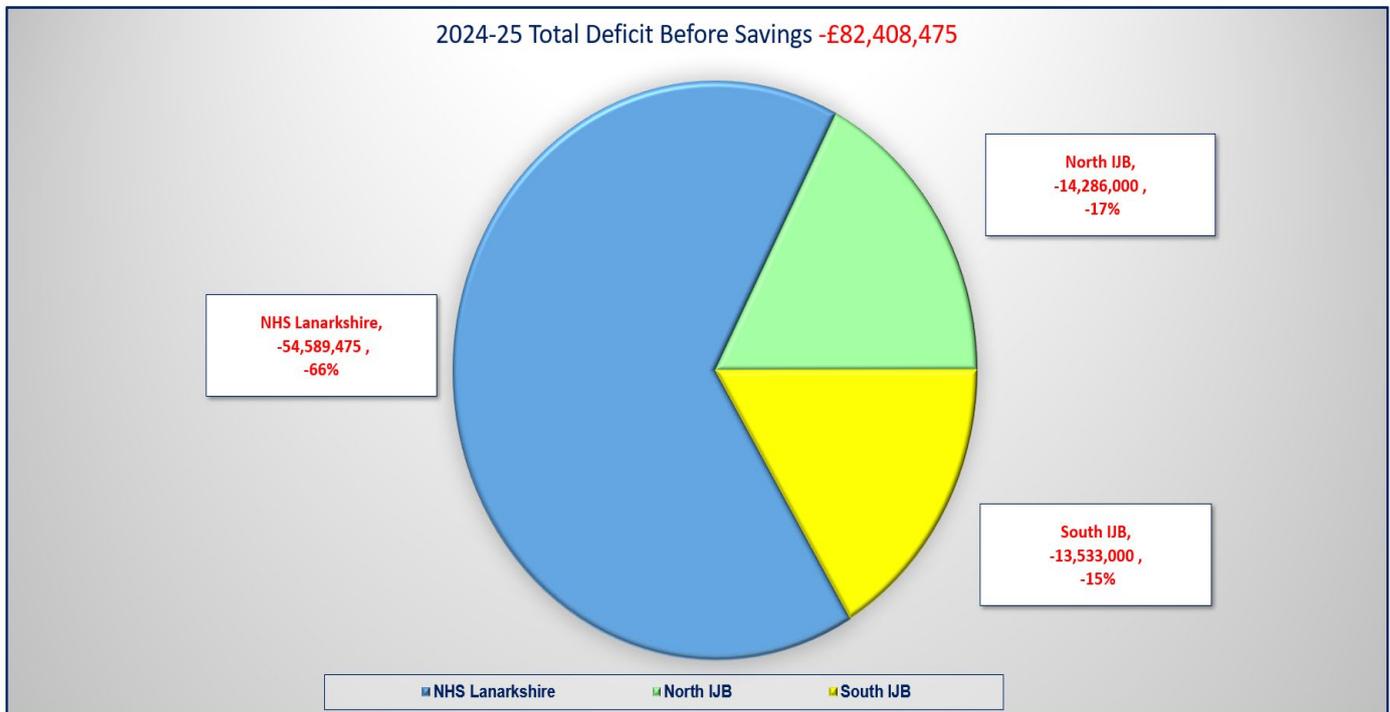

The Financial Plan forecast that for the NHS Lanarkshire Board costs would exceed income by **£54,589,475**. Balancing in year would require efficiencies that either reduced costs or increased income. At the time of submitting the Financial Plan to SG a Sustainability and Value programme of £48,341,794 was agreed leaving a residual gap at that time of **-£6,247,681**.

North IJB and South IJB

The Financial Plan also has a combined opening deficit for both IJBs of **-£27,819,000** (North **-£14,286,000** and South **-£13,533,000**). Both IJBs have Sustainability and Value programmes identified to bridge their gaps and therefore are targeting a break-even outturn.

Chart 11 provides a summary of the deficits and the percentage spread across NHS Lanarkshire, North IJB and South IJB.

Chart 11-2024-25 Total Deficit Before Savings

In relation to savings, the target issued by SG to all NHS Scotland Boards is to deliver 3% recurring savings. This which would equate to £44,668,980 (based on 2024-25 Recurring RRL) for NHS Lanarkshire across all budgets including those delegated to the two IJBs.

MONTH 3 POSITION

Risk Assessment

A risk assessed review of the proposals contained within the original 2024-25 Sustainability and Value (S&V) Programmes has also been completed at month 3.

This review has used a consistent model of scoring. The scoring methodology considers 3 separate risk factors scored out of 5 (Complexity, Reputation and Phasing of Savings) to determine an average 'delivery risk'.

'Average' Delivery Risk

Complexity

1	Independent Sector
2	Budget Management
3	Income Generation/ Asset Disposal/ Financial Management / Service Reduction
4	Medicines / Staffing Reviews
5	Occupancy / Spend to Saves

Reputation

1	No Impact (Organisation / Patient)
2	Some Impact (Organisation / Patient)
3	Medium Impact (Board /Partnership/ Organisation / Patient)
4	High Impact (SG/Board /Partnership/ Organisation / Patient)
5	Very High Impact (Press (Local and National)/SG/Board /Partnership/ Organisation / Patient)

Phasing of Savings Risk

1	Savings are phased to be delivered 1 to 2 Months
2	Savings are phased to be delivered 3 to 4 Months
3	Savings are phased to be delivered 4 to 7 Months
4	Savings are phased to be delivered 8 to 11 Months
5	Savings are delivered over the 12 Months

To determine the final risk, score the 'average delivery risk' is multiplied by a financial value risk which considers the individual savings value of the proposal to determine a total risk score.

The Financial Risk Values are

1	Proposal is less than £100,000
2	Proposal is between £100,001 and £350,000
3	Proposal is Between £350,001 and £750,000
4	Proposal is Between £750,001 and £1,500,000
5	Proposal is over £1,500,000

The following scoring system is then used to categorise the risk level.

Low	1 to 4
Medium	> 4 to 9
High	> 9 to 15
Very High	> 15 to 25

Revised Sustainability and Value Programme

The risk assessment for NHS Lanarkshire has also reduced the overall S&V Programme by £5,589,103. The majority of the reduction is within the Acute Directorate (£5,067,500) and the balance of £521,603 is within Digital. This reduction in savings can be accommodated due to the additional funding agreed with SG.

The revised total value of the 2024-25 S&V Programme is now £70,567,691 (previously £76,156,794).

The following **Tables 9, 10 and 11** provides further details on the S&V Programme across the Savings Type, Recurring / Non-Recurring and Risk Levels respectively.

Month 3 S&V Savings Achieved

Please note that other savings have been achieved in the period to date but only agreed savings between Finance and the relevant Executive Director are included within the monthly report.

NHS Lanarkshire Board

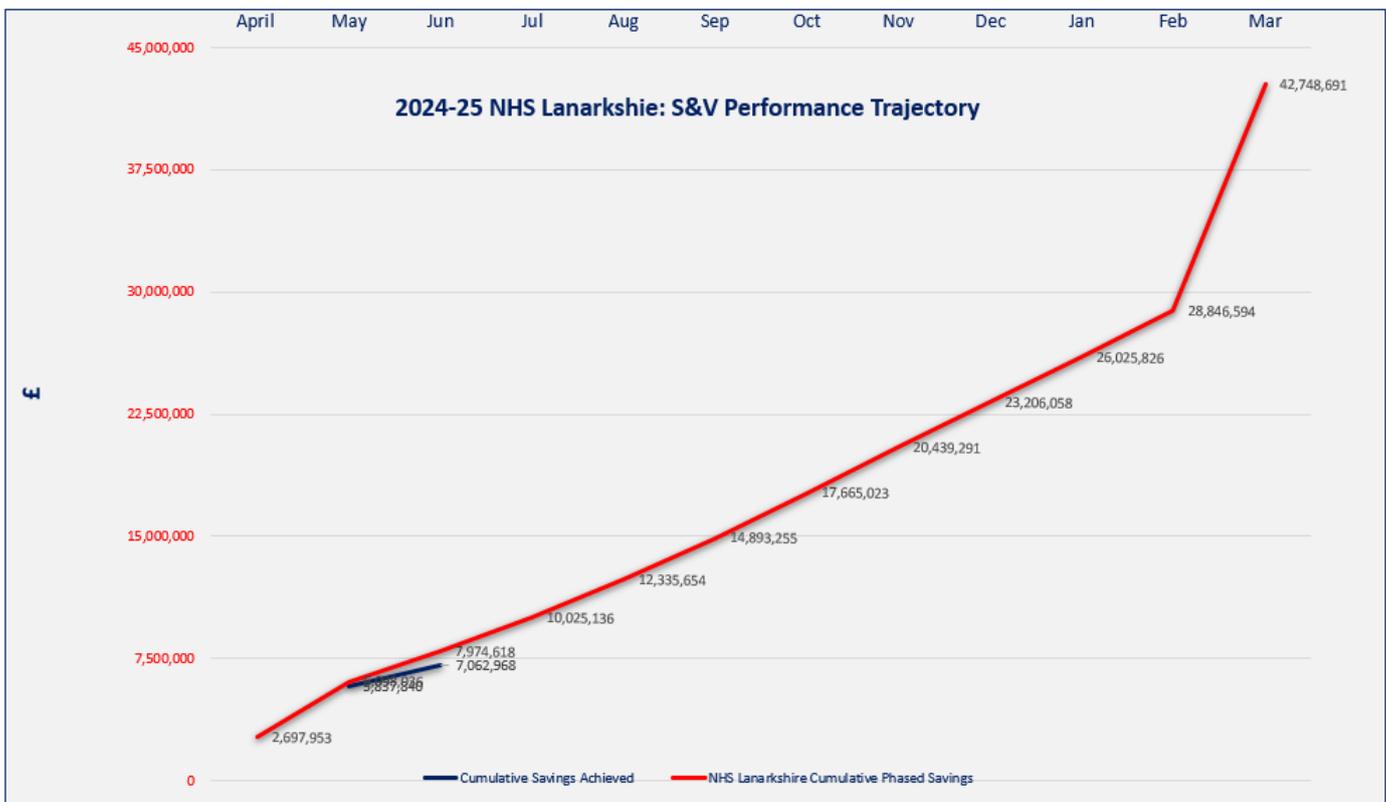

Identification at M3 of £20,322,761 of S&V schemes (phased into budget) against the revised total of £42,748,691. **Table 12** detail the savings achieved to date for NHS Lanarkshire Board.

SECTION 7: 2024-25 FORECAST TO 31 MARCH 2024

Despite M3 results being early in the Financial Year early forecast of the 2024-25 position has been included as Appendix 3 for the NHS Lanarkshire Board.

Table 13 below provides a summary of Appendix 3.

Table 13-Forecast Month 3

Category	£

S&V Schemes Achieved	20,322,761
Forecast Surplus / Deficit to Break Even	-29,790,390

Given the **net position** of all other income and expenditure budgets being achieved the remaining gap at Month 3 to break even is **-£29,790,390** and to achieve the SG adjusted target RRL of **-£6,250,000** the remaining gap is **-£23,540,390**.

SECTION 8: CAPITAL ALLOCATIONS AND EXPENDITURE

• CAPITAL ALLOCATIONS

To date NHS Lanarkshire has not received an allocation letter from Scottish Government (SG) confirming the 2024-25 Capital Allocation. Based on information provided to Scottish Government in March 2024 a total Capital Allocation of £54,703,000 is expected (**Table 14**).

Table 14-2024-25 Capital Allocations (Expected)

Category	£

Green Public Sector Decarbonisation Scheme (GPSEDS)	2,200,000
Total	53,592,000

The Capital expenditure to Month 3 (**Table 15**) is £10,399,597 split between Core (£2,570,644) and Non-Core (£7,828,953). Of the core expenditure this is largely made up of two large

invoices for Medical Equipment and Digital. The Non-Core spend to date is entirely within the Monklands Replacement Project.

SECTION 9: MONTHLY SUMMARY AND RISK ASSESSMENT

- MONTHLY SUMMARY OF KEY POINTS**

- Expected Income budget is £2,037,693,420 (SG 1,939,660,258 and Other Operating Income £98,033,162)
- Gross Expenditure budget is £2,121,258,895 with a recurring deficit target of **-£83,565,475** to be achieved to balance against expected income
- Total Net Expenditure for the Board is **-£5,331,360** including both IJBs:

- NHS Lanarkshire net expenditure position at Month 2 is **-£6,044,970**
- North IJB net expenditure is £342,461
- South IJB net expenditure is £348,078
- Operating Income variance of £23,071 is included in the above

- £1,806,070,050 of SG Allocations received to date

- S&V Schemes achieved to date £20,322,761 (phased into budget)

- Gains total £4,600,000 being the return of the 2023-24 Surplus agreed with SG

- Losses total £123,676, sustainability difference in funding £3,000 and new medicines £120,676

- Remaining gap to break even (subject to all other budgets) **-£29,790,390**

- Remaining gap to SG adjusted target RRL of **-£6,250,000** is **-£23,540,390**

- **RISK ASSESSMENT**

Based on the information at M3, Risk 2197: Ability of NHS Lanarkshire to Deliver a Balanced Budget within Periods 2024/25 – 2026/27 remains Very High.

However, the recent update to the Corporate Risk Register has reduced the scored risk from 25 (Probability 5 and Impact 5) to 20 (Probability 4 and Impact 5).

A number of financial drivers underpin this reduction in risk

- Additional funding received in-year which was not included within the Financial Plan
- Risk assessed review of the original 2024-25 Sustainability and Value Programmes
- Identification at month 3 of £20,322,761 of S&V schemes (phased into budget)
- Improved trajectory based on actual results to date
- Agreement of SG to provide financial coverage up to **-£6,250,000**
- A total Capital Allocation of £54,703,000 is expected for this Financial Year with Capital expenditure to M3 of £10,400,000

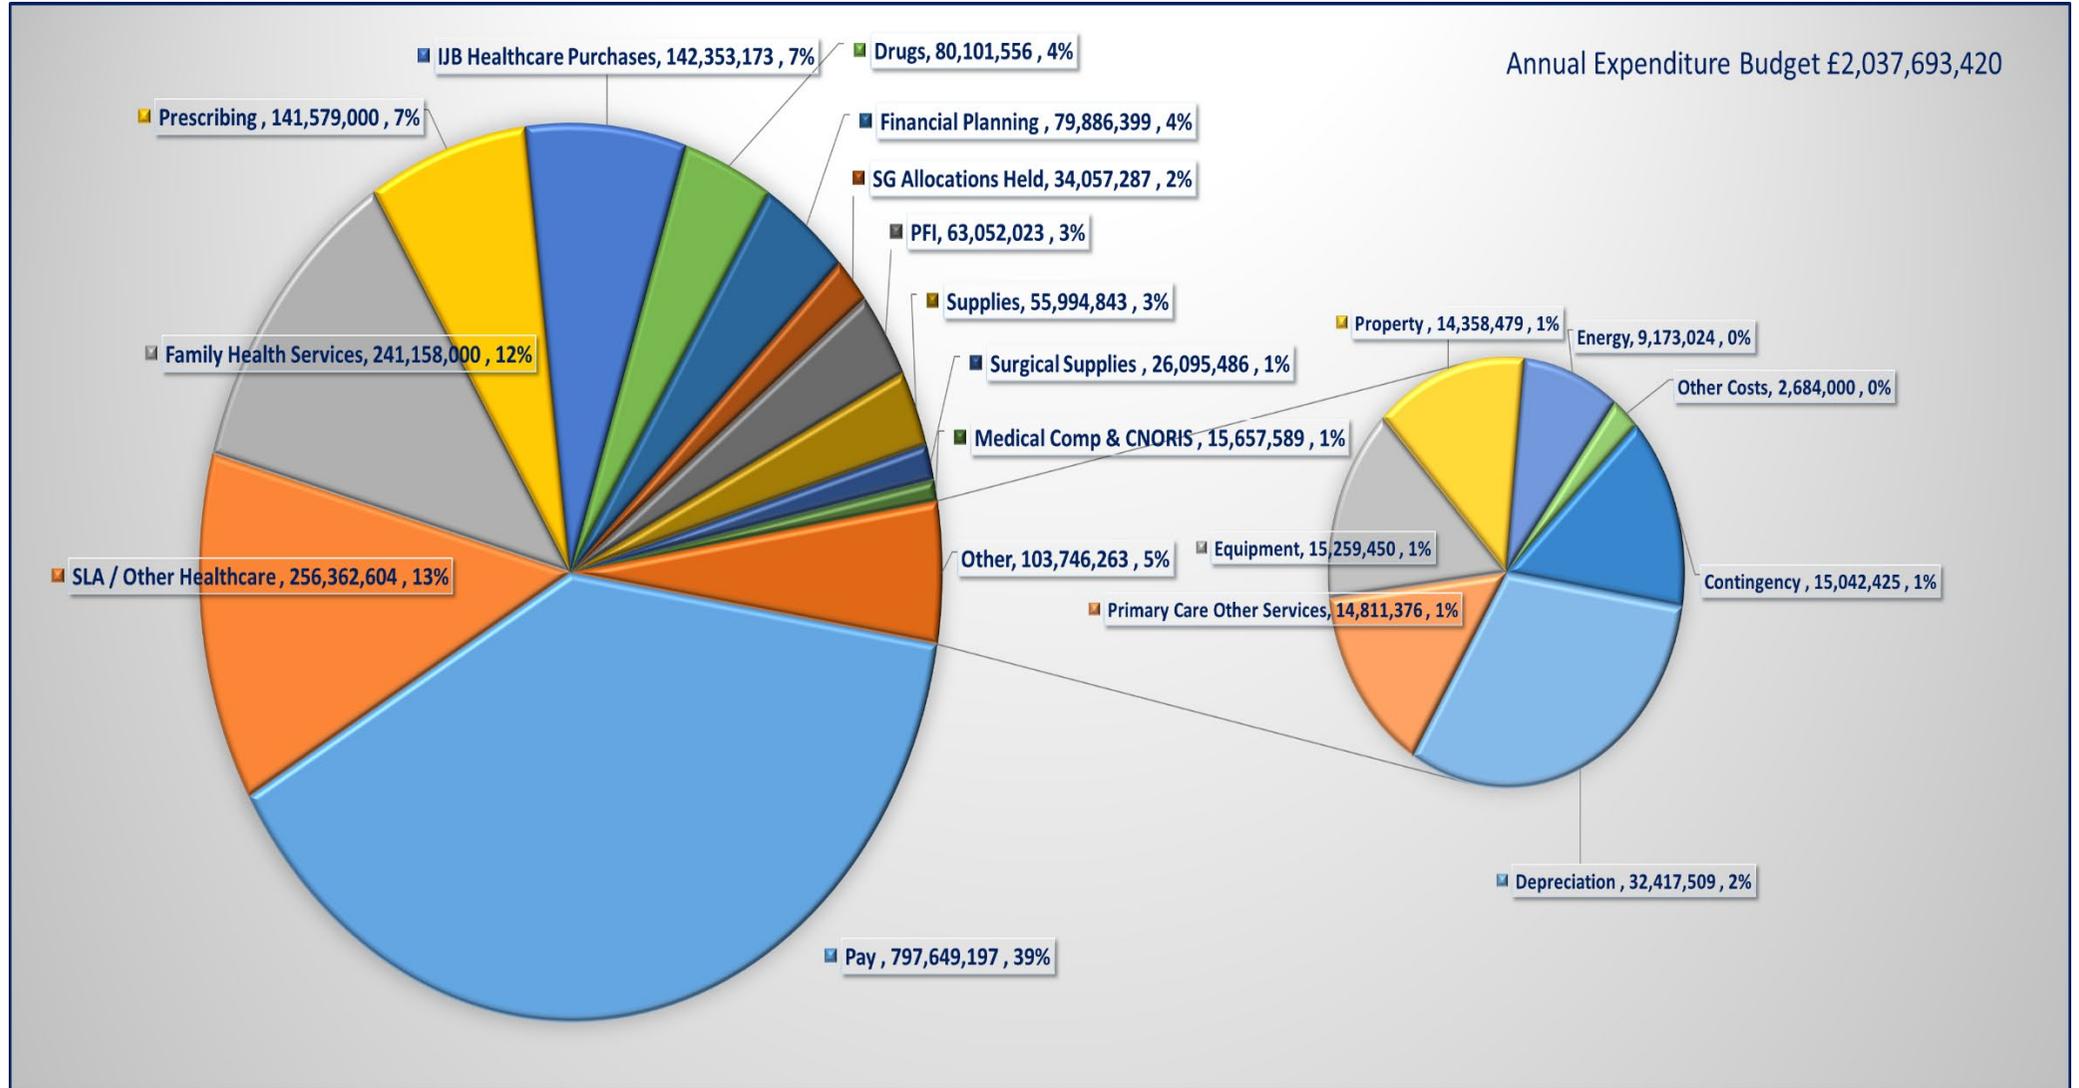

SECTION 10: RECOMMENDATION

NHSL Board is asked to note:

- The contents of the report
- NHS Lanarkshire net revenue overspend of **-£5,331,360** as at 30 June 2024
- The NHS Lanarkshire Board net revenue overspend of **-£6,021,899** as at 30 June 2024
- North IJB and South IJB delegated health budgets have a combined underspend of £690,539 as at 30 June 2024 (being North £342,461 and South £348,078)
- A total Capital Allocation of £54,703,000 is expected for this Financial Year with Capital expenditure to M3 of £10,400,000
- The achievement at Month 3 of £20,322,761 by NHS Lanarkshire Board of their 2024-25 S&V Programme (total revised S&V Programme value £42,748,691)
